

# **Community Meeting:**

## **What Ameren isn't telling you about the 5<sup>th</sup> and Hill toxic site**

You are invited to attend the upcoming community meeting organized by the 5th & Hill Neighborhood Rights Campaign.

At the meeting, community members will learn about Ameren's own test results that clearly show toxic contamination in the neighborhood. These test results raise the question of why Ameren, the Illinois EPA, and the City of Champaign continue to say that there is "no immediate threat to human health."

Please join us for this Community Meeting to learn what Ameren IP, the Illinois EPA, and the City of Champaign aren't telling the community about the toxic site, and plan for next steps to assert residents' rights.

***Come and learn what you can do to help! All are welcome!***
